

71CQ050 - Pressure Ratchet 50mm - 50kN

The one with the red handle

Technical data:

- Webbing width: 50 mm
- Material: High tensile steel
- Finishing: chromated – KOsil
- Tested according: DIN EN 12195-2
- Breaking Strength (BS): 50 kN (5.000 daN)
- Lashing Capacity (LC): 25 kN (2.500 daN)
- STF-value: 250 - 1.250 daN

Our quality and its strengths:

- Ergonomically shaped, red handle
- No rivets or end caps on the handle prevent the risk of injury
- Band take-up shaft made of very high quality steel with anti-slip (AS)
- Disc and sprocket combined, no additional disc required
- Specially shaped sprocket for better stability of the belt take-up shaft
- Including lever lock, optimized movement
- Specially durable KOsil coating: increased resistance to RR according to ISO 9227 NSS test
- Best price/performance ratio
- Quality at the highest level, guaranteed by ISO 9001 and ISO 14001
- Multiple times tested according to DIN EN 12195-2, system certified by TÜV and DGUV
